**NOTICE OF MIDDLEBROOK ROAD
RESURFACING SCHEDULE MODIFICATION**

Dear Resident:

This is to advise you that the resurfacing project that was scheduled to take place on Middlebrook Road has been placed on hold.

The Department of Transportation (DOT) will apply the final surface coating to Middlebrook Road as soon as is possible. Micro-resurfacing will commence at the conclusion of the WSSC improvements scheduled to take place in the right eastbound lane of Middlebrook Road between Great Seneca Highway and Waring Station Road; the conclusion of the heavy construction phase of the new Holy Cross Hospital currently under construction; and the consensus of the appropriateness of the weather.

We appreciate your understanding during this important road repair project. If you have questions about this notice, please contact the Micro-resurfacing Project Manager, Mr. Martin Wurdeman, at 240-777-7649.

Sincerely,

Randy Paugh
Chief of Pavement Management
Division of Highway Services
